
GUARANTEE OF QUALITY

We hereby confirm that the quality of our photographic archival products, **Quality 32xx - Archiving System with Filing Mechanism**, meets the following criteria:

Raw material:

- 100% bleached cellulose (alpha cellulose)
- without the usage of recycled fibres
- free of wooden fibres
- Kappa level 1-2 = lignin-free (TAPPI T 236 om-99)
- pH cold extraction: 8,0 - 9,5 (TAPPI T 509 om-02) = acid-free
- without alkaline reserve (buffer)
- without optical brighteners
- free of softeners, solvents and external plasticizers
- PAT-Test positive in accordance with ANSI IT 9.16 / ISO 14523-1999

We guarantee absolute durability and permanency of this photographic archival paper quality and its coherence to all the necessary requirements for active protection of artefacts. The quality corresponds to the present technological standards of permanency and is suitable for the long-term archival storage of photographic materials.

KLUG-CONSERVATION
Immenstadt, January 2005.
